HAS ADJOURNED INDEFINITELY

**Coroner's Inquest in Cook
Case Again Discontinued
Temporarily.**

**Little Information of Value to
Coroner or Prosecution Gathered Today.**

Nothing of any importance came to light in the Cook case at Coroner Coleman's inquest today, and this evening the inquest was adjourned indefinitely in order that Deputy Prosecutor Kiplinger might have time to prepare his case. There are several things in the case over which the coroner has no jurisdiction, and these will be separated from the mass of evidence now before the coroner, in order that he may carefully weigh it and render his verdict. Just when the verdict will be rendered, Coroner Coleman is unable to say, but it is very probable that it will be several days.

At the inquest today several witnesses, among whom were Isaac Bowen, Mr. and Mrs. John McFeeley, the latter being a cousin of Cook, and Ed. Walters were examined today. Others from Glenwood and the Bankert neighborhood testified that they knew little regarding the case, or of those involved in it.

A report spread about the city this morning that Mr. Bankert, husband of the woman who confessed to the shooting, had been arrested last night as an accomplice, but it proved to be false.

Every effort is now being made by the prosecution to unearth evidence that will substantiate the charges of intimacy that existed between Mrs. Anna Bankert and Cook prior to last Saturday. On the other side of the case the defense, it is said, has men at work and is spending money investigating Cook's past life. In every part of the State in which he is known to have lived, evidence is being collected which will tend to prove him a man of reckless disposition and bad reputation. Indications are that the legal battles of the case will be fought over the question of the characters of the two principals, Mrs. Bankert and Cook.

An attempt will be made to show, it is said that Cook lied when he told persons of unlawful relations with Mrs. Bankert. Evidence will be introduced showing that in Franklin, Henry and Fayette counties, in which Cook lived at times, he told similar stories linking his own name with those of highly respectable women in the communities. From Franklin county comes a report that Cook was sent to the penitentiary from that county, serving two years, and that he had been indicted several times on petty charges. Witnesses from Fayette and Henry counties will testify that his reputation was bad. There is a strong probability that his former wife, who now lives in New Castle, will be examined as to the knowledge of his past life.

If evidence to substantiate all this can be obtained, the defense will build up a case around the point that Mrs. Bankert was a woman of good character and that she was justified in killing a man who had connected her name with his own in deep scandal. In addition to this the contention will be made that she was not aware of Cook's presence in the house, that he was an intruder and that she was as much justified in killing him as she would have been in killing a burglar.

The prosecution, realizing the strength of the defense's position, is leaving no stone unturned to investigate the stories connecting Mrs. Bankert's name with scandal in Morristown and Glenwood, the former homes of the Bankerts. Not only is Mrs. Bankert's life being laid bare by the investigators, but Prosecutor Kiplinger is also known to have turned his investigation upon Sylvester Bankert, the husband.

The prosecution, while not talking much, is convinced, it is understood, that sufficient evidence will be unearthed to prove the charge of intimacy between Cook and Mrs. Bankert. Yesterday by chance, it leaked out

that four letters ear in the possession of the prosecution which will be damaging evidence against Mrs. Bankert. The letters are said to have been found among Cook's effects at the Maffett home. They were first turned over to Sheriff Bainbridge and later to Prosecutor Kiplinger.

Several persons have read these letters and they say they were written by Mrs. Bankert to Cook. They are said to give a clear insight into the relations between the two. In addition to these letters there is proof for the coming, it is said, that Mrs. Bankert sent a money order for \$10 to Cook while he was at Connersville several months ago.

The prosecution is particularly interested in clearing up the mystery that surrounds the razor cut found on the back of Cook's neck which was cut to the bone, the gash extending from ear to ear. The razor was found on the floor in the south bed room, along side the pallet that Cook had made on the floor. It was open and smeared with blood. Mrs. Bankert declared Cook had fallen on it and cut himself. Cook was lying in the north bed room.

The physicians who attended Cook think that had he been cut with the razor in the south bed room of the house there would have been a large amount of blood on the floor. However, there are only four blood spots in the south bed room, all of them small ones, such as might have resulted from the oozing of blood from pistol wounds. In the north bed room there is one large blood spot, circular in shape, with a diameter of more than three feet. The blood is thick and clotted in places and, the indication is that there was a large loss of blood.

The prosecution is firmly convinced that Cook's neck was slashed with a razor in the north room. The theory advanced is that after he had been shot in the south room he was carried across the hall and laid on the floor and there the razor was brought into play. The big blood spot they think indicates this.

WILL BUILD A NEW DEPOT

**C. H. & D. is Planning Erection
of Large Structure—Officials
Here Yesterday.**

It is generally announced that the C. H. & D. railroad company has decided to build a new depot, replacing the one partially demolished in last Tuesday's wreck.

Yesterday R. H. Bowrum, General Manager of the C. H. & D. lines and Superintendent Whitenberger, of the Indianapolis and Springfield division, stopped off here on their way to Toledo and looked into the prospects for repairing the old depot or for building another.

Although these men did not openly discuss the company's plans, it is gathered from good authority that it was definitely settled not to undertake to repair the wrecked station, but to build one on a larger scale.

The kind of structure to be erected, or the site to be chosen for it, are not known. Nothing was openly said regarding this point, and as no engineers have as yet been upon the grounds, authoritative information cannot be secured upon this point.

A man connected with the C. H. & D. gives it as his opinion that it will be some length of time before anything is done concerning the erection of the depot. On the other hand, he says that the company may send engineers here and put them to work at any time.

Another man, prominently connected with the road, is of the opinion that a new station will not be built for some time at least, and probably not at all. He says the company is already being put to heavy expense in the relaying of rails and other improvements being made throughout the system.

The Chautauquas held in other cities in this part of the State, are reported to be well attended, and all of it seem to be financial successes.

—Ed Hunter has returned home after a week's visit with relatives at Elwood, Anderson and Fortville.

BIG AUDIENCE HEARS PROGRAM

Large Chautauqua Tent Filled With an Intelligent and Eager Audience.

Wickersham's Lecture on "Day Dreams" is Applauded Time After Time.

The lecture by Wickersham at Chautauqua, Thursday night, held the close attention of the large audience for almost two thousand, when it was finished the speaker was greeted by one of the greatest volleys of applause, which has ever been given to a speaker in the Chautauqua tent, and well was this applause deserved for any man who can keep the very closest attention of an audience for two hours by his repeated outpourings of wit and noble thought should deserve that the praise Wickersham received last night.

Wickersham is a speaker of much intelligence, and there seems to be no effort in his lecture so easily and fluently does he talk. Such thoughts as these floated out into the audience. "Day dreams are melodies which come, telling us what we could be, what we would be, and what we should be. In them the angel of thought leads us out, in azure space into those realms where the stars fall behind us. The very sequel of every great life is wrapped up in the day dream of the soul."

Before the lecture a short prelude was given by the Heaton sisters, and as this was their last entertainment in this city, they were given loud and frequent applause, and the audience would not allow them to cease their entertainment until it was announced that no more time could be given to their concert.

Robert Parker Miles lectured to a large audience Thursday afternoon. His stories of travel, and his experience in public life are very amusing, and these mixed with a wonderful oratory, and good thought made his lecture one of the best yet delivered before the Chautauqua.

The Dixie Jubilee singers gave a concert this afternoon at 8 o'clock, and they will give the prelude to the regular entertainment for tonight.

Ash Davis, the lightning cartoonist and clay modeler gives an entertainment tonight, and if any one wants to see this gentleman they had better start early and take a chair with them.

The crowds which are now greeting the Chautauqua entertainers are growing. The largest audience of the season greeted Wickersham Thursday night. The management is pleased with the increased attendance, and the people are being pleased by the entertainments furnished by the managers. The program for today is as follows:

8:45.—Opening Exercises.
9:00.—Lecture, Green.
9:40.—Rest.
9:50.—Music.
10:00.—Lecture, Hall.
10:40.—Rest.
10:50.—Music.
11:00.—Lecture, Green.
1:00.—Music.
1:15.—Lecture, Hall.
3:00.—Ferguson's Dixie Jubilee Concert Company. (Colored.)
7:30.—Prelude, Colored Singers.
8:00.—Entertainment, Ash Davis Cartoonist, Clay Modeler, etc.
The program for Saturday will come in the following order.
10:30.—Bible lecture.
2:30.—Prelude, Dixie Jubilee Singers.
3:00.—Chalk Lecture, Caricatures, Character Sketches, Clay Modeling, Impersonations, etc., etc., by Ash Davis.
7:30.—Concert, Dixie Jubilee Singers.
8:00.—Lecture, "Sparks," Robert Parker Miles.

The S. and S. O. Home farm, in Centertownship, has ten acres of Irish potatoes and fourteen acres of navy beans that give promise of an abundant yield.

The cross-tie erecting plant established at Shirley a few months ago, is crowded with business, and is erecting 5,000 cross ties per day.

TRYING TO SAVE MONEY

**The Farmers are Painting
Their Own Mail
Boxes.**

Through some means a report was circulated that the rural route patrons must pay for the painting of the boxes which receive their mail, which work has been ordered by the Postoffice Department, and some amusing incidents have been noted in different places in the country, and Rush along with the others. The farmers who are particular about spending money when they do not think it necessary, have surprised the carriers by having the boxes glistening with a coat of new paint when they came along with the daily mail. They had done the work to keep from paying the contractor. Of course they have had nothing but the trouble for their pains for the Government pays for the work and all boxes will be painted alike when the time comes along for the work to be done.

WOULDN'T WORK IN GREENFIELD

**City Officials There Turn Down
Offer of "Comps" From
Wallace Show.**

The Star of Greenfield, Ind., says: The advance agent for Wallace's circus, which is to exhibit in this city soon, it is said, proposed to the city officers when in the city making arrangements for the exhibition, to exchange a liberal supply of complimentary tickets in lieu of paying the stipulated license fee for such exhibitions. He was informed that such propositions did not go in Greenfield and that the fee would be collected just as provided in the city ordinance relating to such exhibitions.

BRAKEMAN IS FATALLY HURT

**Another Victim on the Big Four
Road at New Point, Decatur County.**

In the course of the last two months eight or ten Big Four brakemen have been either killed or seriously injured at Newpoint, on the Big Four between Greensburg and Batesville. Yesterday Edward Breeding, of Columbus, a Big Four brakeman, was fatally injured at the Sands' switch, just east of Newpoint, at a few minutes after nine o'clock in the morning. Breeding was at work on an extra freight and was making a coupling on the switch when the accident occurred.

The draw bar on one of the cars which he was attempting to couple, had been pulled out and he was compelled to use a chain coupling. When the cars came together Breeding was caught between them. His right shoulder and chest were crushed in from both front and back and his right lung was mangled.

Breeding was taken to Greensburg and then to Indianapolis on the next train, but died while on his way to the hospital. He was about thirty-four years old and had a family a Columbus. He had been in the employ of the Big Four for about a year.

Stella Handley has filed suit for divorce in the Rush circuit court against John Handley. The plaintiff says that they were married in 1889 and that her husband left her in 1900. She wants a divorce on the claim of non-support.

Greenfield Star: B. A. Sunderland, of this city has a son named Gowdy in honor of Gen. John K. Gowdy, United States consul at Paris. Mr. Gowdy is a relative of Mrs. Sunderland. Gen. Gowdy sent his namesake a souvenir card a few days ago.

MORE NEW CARS BOUGHT

**The I. & C. Will Replace Cars
on Shelbyville Line With
Larger Ones.**

**Company Also Orders Five More
Boilers and Two Turbines
For Power House.**

The Indianapolis and Cincinnati traction company has ordered of the St. Louis car company, which built the large cars now in use on the Rushville division, ten more new cars for use on the Indianapolis and Greensburg division. These ten cars will be exactly like those used on the local division except that they will be lettered, "The Indianapolis & Cincinnati Traction Company. — Shelbyville Line."

The cars may contain some improvements over the Rushville cars as it is the intention to have them built as up to date as possible.

A contract has just been closed with the General Electric Co., of New York City, for two large turbine engines to be installed in the power house. When these engines are installed the power house will more than double its present capacity. It will be capable of furnishing power to cars 90 miles in any direction.

Together with this contract the company has placed an order with the Babcock and Wilcox company for five more boilers.

Ample space was left in the power house for this new machinery and by the time the line is extended to Cincinnati the Rushville power house will be furnishing the power for the entire I. & C. system.

Besides the ten new passenger cars, the company has ordered four freight cars for its two divisions. The small cars now in use on the Shelbyville line will be sold to some other road. Work will begin upon the improvements at the power house on January 1st, 1906. Each of the new turbine engines will have a capacity of 12,500 horse power. They will be the largest engines in this part of the United States.

Officials of the company do not know just when the work of grading for the line between this city and Connersville will begin. As the contract has been let, the matter lays solely with the grading company which is under bond to have the work completed by a certain time.

Traction officials have talked with some of the farmers between this city and Shelbyville and it seems that there is a disposition to hold the company up for a high price for the land. If the officials encounter this disposition all the way through the company will not go any further but will at once look to the advantages of a line between Rushville and Greensburg.

OIL WELL WILL BE BAILED OUT

**An Exhaustive Test Will be
Made of Buena Vista Oil Well
Monday by W. A. Mull.**

Laurel Review.

The Board of Directors of the Oil Stock, Gas and Mineral Co., held a brief session here, Monday night, when it was decided to again bail out the well at Buena Vista and give it a thorough test in that way.

W. A. Mull, of Rushville, has been engaged to do the work which will be commenced next Monday.

It is the intention to begin early in the morning so as to have plenty of time. The well will be bailed thoroughly dry and then allowed to fill again, when it is thought, a fair idea of the flow of the Rockefeller fluid may be obtained.

MILLINERS KICKING

**Bare Headed Fad Does Not
Take Very Well With
Them.**

Milliners everywhere are registering a strong complaint against the "bare-headed fad" which struck the country in a mild way last summer, but which has simply swept the country broadcast during the present summer season. Heretofore the millinery trade on summer creations has been very large, but on account of the dictates of fashion, the young women and also the older ones, have given the milliner a wide berth during the past few months. Whether the bare-headed fad has come to stay is not known, although those having hats to sell are hoping that it is not, but that the above style is prevalent during the present season, is generally recognized.

WILL BE STOCKED WITH BLACK BASS

**Sugar Creek, Flatrock and Blue
River Will Receive Another
Supply.**

Sugar Creek, Blue River, and Flatrock, are to be stocked with black bass by the United States Fishery Department.

This announcement was made at Columbus this week, when Will G. Irwin, manager of the Indianapolis, Columbus & Southern Traction line, received a notification to this effect from G. M. Bowers, federal fish commissioner, in response to an application filed with the Government by him for fish to be placed in the streams along the line of the interurban line. Mr. Irwin was notified to be in readiness to handle the fish this fall as fast as they are shipped by the Government authorities.

TOOK A DOSE OF MORPHINE

**Mrs. Ed. Anderson, of Shelby
County Attempts to Take Her
Life Wednesday Night.**

Mrs. Ed. Anderson, of Walkerville, Shelby county, aged 22 years, attempted to commit suicide at the home of her mother, Mrs. Len Poe, who also resides in Walkerville, about eleven o'clock Wednesday night by the morphine route.

Mrs. Anderson was at the home of her mother for a short visit and in the course of the evening, she and her mother quarrelled over family affairs.

Mrs. Anderson made a threat of killing herself, but little attention was paid to the threat by Mrs. Poe. Shortly afterwards Mrs. Anderson retired to another room in a pouting mood and on going to the room later members of the family found her lying on a bed in a sleep that seemed unnatural. A paper which contained a small quantity of morphine was found beside the bed.

Physicians were hastily summoned and Mrs. Anderson was soon restored to consciousness. She has now entirely recovered but will not discuss her act.

W. P. Elder, connected with the Brann & McFarlan real estate agency has gone with a party of between 15 and 20 prospectors for Morton and Hetting counties, North Dakota.

Mrs. John L. English and two children, Glorinne and Charles, and Miss Lizzie Graham left today for a visit with relatives, at Anderson, Fairmount and Marion.

The fourth annual meeting of the Scotch-Irish Association will be held at the Rush county fair grounds August 23d. Arrangements are being made for a large attendance at this meeting.

HAS SENT HER TO HER HOME

**Mr. and Mrs. Homer Cutsinger
Said to Have Parted.
—Midnight Marriage.**

**Sequel to the Marriage of a
Man Well Known in
Rushville.**

The Herald of Columbus, Ind., says: The weird solemnity of the Jordan-Cutsinger wedding performed a year ago on a bridge at midnight has not had a lasting effect according to reports Mr. and Mrs. Homer Cutsinger, of Edinburg, have separated and she has gone to the home of her wealthy parents in St. Louis. It is said that he is telling that he has sent her home because he is tired of her.

The wedding which set the little town of Edinburg agog last August, was the culmination of a courtship of scarcely a week.

Miss Jordan went to Edinburg to be the guest of Miss Alma Maley and one of the first young men she met of the place was Homer Cutsinger, son of Martin Cutsinger, one of the wealthiest farmers, of Johnson county. His attention to her was constant and it soon became whispered that the love he professed for her was reciprocated. The case was one of love at first sight.

Miss Jordan's hostess Miss Maley watched with no little anxiety the progress of their courtship—which made rapid strides in three or four days, and believing that it was her duty to inform her guest of the reputation borne by young Cutsinger, recited the long list of acts, which have branded him as one of the wild young men, of Edinburg. Miss Jordan turned a deaf ear to her friend's protestations and said that no matter what he had done, she was going to marry him, as he was the only man she had ever loved.

The wedding was secretly planned and together with Miss Leland Robbin, grand-daughter of Henry Maley, and Earle Ensley, who had also been married secretly in Cincinnati, they drove to the open bridge over Driftwood, where with the moon, trees and laughing streams as their witnesses, they were united in marriage by Rev. Zen Burkett, now of Knightstown.

The bride returned to the home of her hostess and the groom to his home with the intention of keeping the affair a secret but just then the marriage of Mr. and Mrs. Ensley leaked, followed by the publicity of the Jordan-Cutsinger match.

The moment Mrs. Cutsinger heard of it, she was delighted and telephoned to the Maley house for her new daughter to come home and receive her blessing.

There were dinners and parties given for the bride and groom and every one seemed interested excepting Miss Maley, who felt that she was responsible for the whole affair.

The romantic marriage with its interesting points reached the Indianapolis papers, and they notified the St. Louis press and it was by this means that Miss Jordan's wealthy parents became acquainted with their daughter's marriage. When the reporter was at the palatial residence of the Jordons, Mr. Jordan received a telegram from Edinburg signed "Byrd". It stated she was married. The St. Louis papers were full of the consternation caused by the reporter and telegram and told how serious the shock was to Mrs. Jordan.

Mrs. Cutsinger received a telegram the next day to come to St. Louis and while on their way, they were caught by an Indianapolis Star photographer.

As the climax to the year which is said has been full of unhappy situations comes the report that they are separated and it is said that he has remarked that he is tired of her and has sent her home. She has left the city and the night before she left she stayed at the home of Mr. Ensley and wife.

This was Mr. Cutsinger's second matrimonial venture. Five years ago he was married to Miss Anna Mauzy, daughter of Greeley G. Mauzy and wealthy merchant of Rushville. Mrs. Cutsinger is a charming little woman. In Edinburg she became a great favorite and is said to have been loved by her parents-in-law.

Chamberlain's COLIC, CHOLERA AND Diarrhea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhea.

It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take. Every man of a family should keep this remedy in his home. Buy it now. It may save life.

SAMPLE OF HARMONY

Indianapolis Democrats Honing Up Their Snickersees.

Indianapolis, Aug. 18.—Trouble with a large "T" is coming for Mayor Holtzman and his allies over the manner in which they have determined on the make-up of the ticket to be nominated the 26th of this month. The mayor wanted James L. Mitchell for police judge and the other candidates were blandly informed by Chairman Raub of this decision. He advised them to get out of the race at once. This, they indignantly assert, is a queer way of bringing about harmony in naming a ticket. There were three active candidates besides Mitchell, and their friends are naturally very sore over the manner in which they have been treated. They will be defeated in the convention if they allow their names to go before it, as the mayor will control the machinery, but their chance to get even, they say, will come later in the fight.

The filing of articles by another million dollar coal company once more calls attention to the wonderful transformation that has been going on in the Indiana fields during the last two years—or, perhaps, to be more accurate, during the last year, which has witnessed the formation of several coal companies whose capital aggregates several million dollars each. Two or three railroad systems have acquired tremendous holdings by buying out the smaller companies and individual operators. Then there have been three or four big concerns not connected with railroads that have helped along with the process of consolidation. The net result of the transformation is that the opportunities for the operators with the small capital have been narrowed to the point where their business will be jeopardized and not cut much figure. A man who is well informed on the conditions in the Indiana field said today that already the effect of the combinations is being felt, as there is less work than there has been for a long time. The miners are having a hard time getting along, and as many of the smaller companies as possible are getting out of the business. He predicted that it will not be long until practically all of the mining is done in this state by the million-dollar companies.

Secretary of State Dan Storns made the assertion today that Governor LaFollette of Wisconsin is a greater orator and more forceful speaker than William Jennings Bryan. Some of his hearers were inclined to scoff at him, but he held to it. He said that LaFollette spoke for over three hours at Lafayette for an immense crowd, which sat in a sweltering sun and listened, enrapt, right through. He declared that Bryan could not hold an audience as well. LaFollette gave him an insight to his way of campaigning in Wisconsin. Last year he made a tour of the state with two automobiles, having one for emergencies. He spoke eight hours a day for forty-one days. His plan was to have a county billed and after making a tour of the smaller places in the day time, to hold a big meeting at night at a central location. In that way he came within hearing of practically all the people and had a good chance to stir them up. His record has hardly been equaled as a campaigner, although Bryan probably underwent as great a physical strain in his long tours through the entire country in 1896 and 1900.

THE ONLY CHANCE

Compromise Is the One Thing That Will Now Save Conference.

THE IMPASSE REACHED

Sakhalin and Indemnity, the Stumbling Block a Week Ago, Is Still in the Road.

Two Main Points in the Dispute Will Probably Go Over Until Monday.

Portsmouth, N. H., Aug. 18.—The crisis in the peace conference has been reached and pessimism is again the note. But the darkest hour is just before the dawn, and there is still hope. Predictions of a final rupture today certainly will not be justified unless Baron Komura figuratively picks up his hat and announces that it is useless to proceed further. Mr. Witte at least will not be precipitate. At today's session after Article 11 (the limitation of Russia's sea power in the far East) and Article 12 (fishing rights on the Russian littoral) are disposed of, he will favor an adjournment until Monday to hear the last word from St. Petersburg.

The pessimism today is based upon the fact that no progress was made yesterday. The exchange of views at the morning session on Article 9 (remuneration for the cost of the war) showed at once that the plenipotentiaries were as far apart as the poles, and it was passed over. Article 10 (the surrender of the interned Russian warships) was also passed, not because it could not have been arranged, but because, with the shadow of the two main points in dispute hanging over the conference, both sides were cautious and preferred to postpone it to the end. Article 11 (limitation of sea power) is also adjustable after modification, and Article 12 will present no difficulties. So that today the situation was practically what it was when Mr. Witte last Saturday presented the Russian reply with its non possumus to Articles 5 and 9 (indemnity and Sakhalin).

The only chance now is compromise—Russia to yield Sakhalin and Japan indemnity. Neither will yield both, and perhaps Japan at the final show of hands will yield neither. Mr. Witte under the imperial indications contained in the instructions given him before he left St. Petersburg, can agree neither to pay war tribute nor cede a foot of Russian soil. St. Petersburg, therefore, in the last resort remains to be heard from. Doubtless this is the reason why he favors a postponement over Sunday. Baron Komura probably will welcome an adjournment of two days in order that he also may lay the situation before his government for its final decision.

A very important conference occurred in Mr. Witte's rooms shortly before midnight last night. There were present Baron Rosen, the other Russian plenipotentiary, and Messrs. Von Martens, General Yermoloff, Mr. Pokotiloff, Mr. Shipoff and Captain Roussin, the five Russian delegates. It is the first time a full meeting of plenipotentiaries and delegates has been held since the conference began. The preliminary discussion of the Japanese conditions is already virtually ended. It is not improbable that the final report and recommendations of the Russian plenipotentiaries was passed upon and transmitted last night to the emperor at Peterhoff.

POLITICAL DEATH

Would Follow Russia's Payment of Indemnity, Says Von Martens.

Portsmouth, N. H., Aug. 18.—Mr. Von Martens, one of the Russian delegates and recognized as one of the great authorities on international law, not only in Russia but throughout the world, in speaking about the principle of the war indemnity, said that there was no precedent in history where a country whose territory was not occu-

FREDERICK VON MARTENS.

pled in whole or in part by the enemy, had paid war tribute upon the conclusion of peace. Russia, Mr. Von Martens said, was not crushed. She was not on her knees begging for peace. She wanted peace, but she could go on fighting for years. Japan has not even approached the true Russian frontier.

"Should Russia consent to pay trib-

ute to Japan in any form," continued the eminent jurist, "it would be her political death. The powers would understand that she accepted the proposition of President Roosevelt not because she was desirous of an honorable peace, but because her power had been annihilated and she recognized that it was impossible for her to continue the war. It would mean a public confession that Russia is at Portsmouth helplessly kneeling before Japan, imploring peace and ready to accept any terms imposed. No one will seriously contend that the Muscovite empire is in any such position."

With many interesting historical examples, Mr. Von Martens proceeded to elaborate his thesis that no country had ever paid indemnity except when powerless to confront the enemy on the field.

TREATY OF PEACE

Will Be Outcome of Conference, Says London Diplomat.

London, Aug. 18.—While pessimism reigns supreme in the reports from Portsmouth and the editorials appearing in the newspapers, there exists in official circles in London a strong conviction that a treaty of peace will be the outcome of the conference. It is declared that the British government, which has been kept informed of the progress of negotiations through Mr. Hayashi, is fairly hopeful that a lasting peace will be concluded.

A diplomat said: "It is natural for both sides to assume an unyielding attitude and to maintain their respective positions to the point of breaking off negotiations. This has been the practice of plenipotentiaries at every peace conference. I do not believe that the plenipotentiaries in this case will leave Portsmouth without signing a treaty. Their responsibility for the continuance of this ghastly war is too serious. Honor in the contest has been won and lost already and a treaty with or without sacrifice on points of differences will affect the prestige of neither."

"Both the Russians and Japanese knew practically what terms could be arranged when it was agreed to meet, and the Russians were well aware that the Japanese would want Sakhalin and an indemnity. If the plenipotentiaries keep their tempers I am of the opinion that they are not likely to split on any points before them."

A Significant Straw.

Paris, Aug. 18.—Pessimistic advice emanating from other capitals are regarded as unwarranted, especially in financial circles, where it is the general view that the Portsmouth conference will be crowned with success. The remarkable firmness of Russian stocks and their tendency to rise in value show the depth of this feeling.

TO ALTER THE TARIFF

Reciprocalers Suggest a Solution of Perplexing Problem.

Chicago, Aug. 18.—The reciprocity conference called to devise means of bettering the trade relations between the United States and foreign countries finished the work for which the meeting was called; arranged for a committee to prosecute the plans of the convention, and formed a permanent organization styled the American Reciprocal League. The committee consists of fifteen members, to be appointed by the chair and was given full power to organize and promote the work for which the convention assembled.

The resolutions adopted advocate a maximum and minimum tariff as a means of relieving the situation with which this country is confronted, and suggested that such a reciprocal concession be arranged by a permanent tariff commission to be created by congress and to be appointed by the president.

IGNORED ORDERS

And as a Result Excursion Train Plunged Through Open Drawbridge.

MANY WERE DROWNED

Death List Not Complete as None of Those in First Coach Have Been Accounted For.

Torrible Fate Overtakes a Party of Negro Merry-makers Near Norfolk, Va.

Norfolk, Va., Aug. 18.—A half a hundred negroes, occupying the first car of an Atlantic Coast Line excursion from Kinston, N. C., to this city, were killed six miles from this city yesterday afternoon. The train, consisting of the engine and six coaches, plunged through an open draw of the bridge at Bruce station, the engine and one coach being completely submerged in about twelve feet of water and the second coach partly submerged.

It is difficult at this time to estimate the number of dead. It is believed that every person in the first car perished, none having yet been accounted for. With the exception of the train crew and the promoters of the excursion, all aboard were colored. The engineer, fireman and conductor escaped. The list of injured numbers nearly a hundred, though most of these are but slightly hurt. Among the victims the only white ones were Edward Joliffe, manager of the excursion, and Edward Forbes, who assisted him, both of Greenville, N. C.

The train was running at the rate of fifteen or twenty miles an hour as it approached the bridge. The specific orders of the road to stop all trains at the bridge whether the draw is open or not, was apparently ignored or the engineer lost control of his airbrakes. The train plunged into the abyss. Both engineer and fireman discovered the open draw too late to stop the train. They declare the airbrakes were applied but did not work properly.

The scene following the wreck was one of indescribable horror, with the shrieking of men, women and children who were drowning, struggling out of the partly submerged coach and floating in the river. The passengers who were uninjured immediately started to rescue those imprisoned in the cars. Norfolk and Portsmouth were communicated with and physicians were sent out on a wrecking train. Many people in the neighborhood went to the scene of the wreck and helped in the rescue. The injured were taken to the track embankment and were attended there by the physicians.

The engine is completely submerged, not even the smokestack being visible. The car that was next to it is also submerged completely and the dead can be gotten from it only by diving under the car. The train consisted of six coaches. Four of these remained on the track. Those aboard these cars were only shaken slightly. The damage to passengers was confined to the first two cars.

New Orleans People Take Cheerful View of Situation.

New Orleans, Aug. 18.—New cases yesterday, 77; total to date, 1,223; deaths yesterday, 180; new subfol, 14; total subfol, 262; number of cases under treatment, 427.

Aside from the fact that the systematic work of the federal authorities and the full compliance by the local physicians with Dr. White's request for the report of every suspicious case has again developed a stout total of new cases of yellow fever, the local situation continues to give satisfaction. Those who studied the records of former years predicted in July that August would bring a heavy jump in the mortality, but with more than half of the month gone by and the deadly death totals not greater and in some instances lower than in July, even the most pessimistic of the community are beginning to take a cheerful view of the outlook, believing that there is little danger to be feared from an attack of the fever in its present form. Even with the present measure of improvement, however, there has been and there is to be, no relaxation of the supreme efforts that are being made to wipe out the fever, the forces of employees are being steadily augmented and every dollar needed to carry out the plans of the federal control on its most elaborate scale is to be available as it is needed.

MORE ILL FORTUNE

Cruiser Chicago Smashes Into the Luckless Bennington.

San Francisco, Aug. 18.—The cruiser Chicago, flagship of the Pacific squadron, flying the flag of Admiral Goodrich, went aground close to the lighthouse and fog signal station on Angel Island in this harbor. She came up from San Diego with the disabled gunboat Bennington in tow and accompanied by the navy tug Fortune. A strong ebb tide was running and in the current the tow line on which the Bennington was trailing parted. Before her headway could be stopped the Chicago ran her nose upon the beach. The Bennington on her momentum sailed up close to the stern of the stranded vessel before her anchors took hold.

The tug Fortune soon got a line to the Chicago and succeeded in pulling her clear of the bottom, but when she came off she took a sheer that sent her straight for the anchored Bennington. The current of the tide carried her down across the bow of the anchored vessel, and there was a smashing of metal when they came together. Then the two vessels, afoul of each other, went drifting on the tide. Both were considerably damaged.

Periodical Publishers Act.

New York, Aug. 18.—The periodical publishers of this city have adopted a resolution that the periodical publishers of America should pledge their support to the United Typothetae in its determination to resist the present adoption of the proposed eight hour rule of the typographical union. COURT'S WARNING

Judge Stubbs Solemnly Adjures Boys to Shun Cigarettes.

RUINATION OF MINDS

This Is the Penalty, the Court Says, of Continued Use of the Deadly "Coffin Nail."

Judicial Effort Made to Locate Parties Who Are Violating the New Law.

Indianapolis, Aug. 18.—Eight boys appeared in the juvenile court charged with having smoked cigarettes. Some of them admitted that they had done so, while others did not. The court carefully examined those who said that they were smokers. In most of the cases it developed that the cigarette papers were sent to the boys through the mails by the American Tobacco company. Five of the boys were under sixteen years of age.

The object of the examination was especially for the purpose of finding out where the boys received their cigarettes. The fact that the papers are sent into the state was a disappointment to some of the court officers, who wished to bring into court the men who had given papers to the boys. The boys were all released by Judge Stubbs.

"If I had a boy," said Judge Stubbs, "I would rather see him go into a saloon and take a drink than smoke a cigarette. Drink might kill him, but cigarettes would ruin his mind. I desire to warn you boys against cigarettes because business men are deciding that they don't want cigarette smokers about them. They won't hire boys, or men either, who smoke cigarettes."

He then read a list of prominent business houses that will not take cigarette smokers into their employ.

"It is my belief," said Clerk Joiner of the juvenile court, "that the names of the boys are sent to the tobacco company by dealers here. They probably got a list of names from some boy and then sent it to the tobacco company. If that is the case they could be brought into the juvenile court and would come under its jurisdiction."

BOYS WERE SURPRISED

When They Found Money on Bushes in Jennings County.

Vernon, Ind., Aug. 18.—Wilbur McClure, carrier on rural route No. 2, out of this city, had a narrow escape from being drowned. When he attempted to cross Child's branch, south of the city, the current swept the horse from its feet, carrying the wagon and driver down stream. The wagon turned over several times and finally lodged against a bush, where Mr. McClure succeeded in pulling himself out of the water. Money, money orders, postal cards and letters floated away, many of which have been found. Two boys found a \$5 bill in a bush half a mile below the place where the accident happened.

Bible Conference at Winona.

Warsaw, Ind., Aug. 18.—The Winona bible conference opens at Winona lake on Sunday, Aug. 20, closing on Wednesday, Aug. 30. The attendance has grown rapidly and in 1904 over 4,000 ministers and laymen were in attendance. The teaching force numbers 100 and the scope of the conferences to be held is so large that it touches the entire field of Christian work.

Early Dividends Expected.

Terre Haute, Ind., Aug. 18.—Fourteen hundred checks, calling for \$250,000, which is a 40 per cent dividend for those depositors in the Vigo bank who had presented their claims, a considerable number not having done so, have been signed by the controller of the currency. It is expected that payment will be made early next week.

Boy Spiked the Switch.

Kokomo, Ind., Aug. 18.—Earl Porter, aged eighteen, was arrested for wrecking the Lake Erie & Western passenger train here in which fifty lives were imperiled and several persons were injured. The boy made a written confession, admitting that he spiked the switch.

Farmer Fatally Scalded.

Logansport, Ind., Aug. 18.—While operating a traction engine en route from his farm west of the city to his home at the edge of town, Dock Simmons, a well-known farmer, was horribly scalded with steam and water, and it is feared his injuries may prove fatal.

Worked Substitution Game.

South Bend, Ind., Aug. 18.—Two men worked a clever swindle at the Mayor jewelry store, getting a \$750 diamond by substituting a counterfeit while the clerk was looking up the price list. The substitution was not discovered until the pair made their escape.

Elwood, Ind., Aug. 18.—Ben Farmer, the West Elwood lad who accidentally shot and inflicted a wound that killed Frank Hackett while the two lads were discussing a trade of a revolver, was exonerated by the coroner.

The Rush Continues

Over 1000 People in Rushville and vicinity have been fitted with glasses by Mr. and Mrs. Lingerfield and Miss Sweetzer during the past year.

They still continue their monthly visits to Rushville. The third Monday in the month is the day when you can receive a free examination of the eyes at the Scanlan House.

It is a fact, that they are experts in the art of correcting all defects of the eyes such as Hypermetropia, Presbyopia, Myopia, Astigmatism, Stabesimus, Muscular Insufficiency, or compound trouble of any kind or description.

Their next visit will be on
Monday, Aug. 21st.

Mrs. Clara A. Gartin who lives on R. F. D. No. 9, Rushville, Ind. Says:

My son was almost a constant sufferer of sick and nervous headaches. There was hardly a day that he did not complain and many days he was not able to attend school, and invariably days that he would attend he would complain of severe pains in his head on his return. We consulted both doctors and eyes specialists but without beneficial results the glasses he wore did him no good whatever.

We finally consulted Mr. and Mrs. Lingerfield, and Miss Sweetzer, having heard of their great success in helping others. It is now eight months since he has worn the glasses prescribed by them and I have never heard him murmur about his head or eyes since then, which is proof positive that his eyes are holy at fault and that he had never received the proper treatment before. Therefore I most heartily recommend these specialists.

RUSHVILLE MAKES IT FIVE STRAIGHT

Locals Overcome a Big Lead
by Greensburg and Win
Again.

After Greensburg had secured a lead of 5 to 0 against Rushville in yesterday's game, the locals gained ground and finally wrested the game away from the Reds by a batting rally in the eighth inning. Wagner was batted hard and retired in favor of Dugan. The features of the game were the batting of R. White, Firestine and Kiser, of Rushville and Prout and Reggy for Greensburg. Woodruff caught a great game for the Reds. A small crowd witnessed the contest and pronounced it an interesting one.

Today's game was cancelled by Manager Geraghty because two of Greensburg's players were intoxicated during yesterday's game.

Score 1 2 3 4 5 6 7 8 9—RHE
